Dear Friends,

It hardly seems right to start by asking if you have enjoyed the British summer, as I'm sure that all of you living in the UK have had worse weather than we have. At least on an island the rain just runs off into the sea! However, there have been several positive things for Churchtown Farm to have come out of the summer months...

Rosie's first day at school

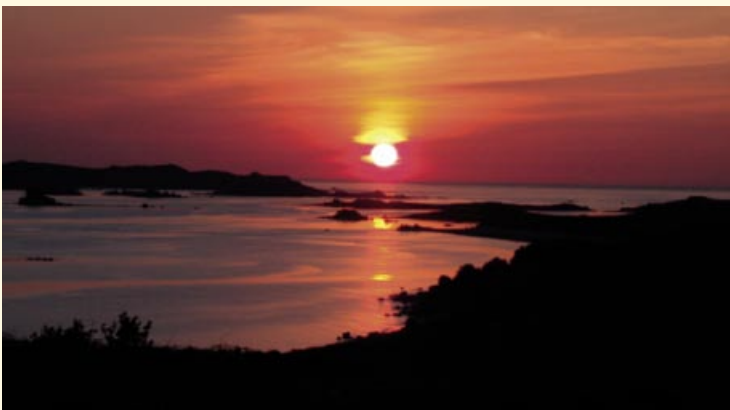

Rosie has started at our island school! It hardly seems like yesterday that we were writing to tell you that Rosie had just been born – and now she has started full time at our island primary school with the eight other children. She looks so grown up trotting off each morning with her friends down the green lane to the school, clutching her school bag – at this rate it will be no time at all until she's running the farm for us!

We have our own warehouse! Because our business just keeps on getting bigger, we had outgrown our existing farm buildings, which were bursting at the seams. So James has built us a whole new shed (in between helping with our flowers!) with three levels of racking. This now means that Bronia and Zoë have a brand new dedicated area (our old box store!) in which to make our stunning **Seasonal Bouquets** and Will and his team have much more space in which to pack our gift boxes of **Beautiful Scented Narcissi**.

Our new warehouse

Sadly, the nearby Island of Tresco has decided to stop growing and sending the Scented Narcissi for which our islands are so famous and to concentrate instead on its tourism business – a sign of the times for British Farming? Happily, however, they have asked us to look after their existing customers as we have such a strong and proven track record in providing **excellent customer service**. Praise indeed from such a high profile and prestigious operation, and no doubt influenced by the fact that all of our flowers are **fully guaranteed!**

Another webcam sunset at Churchtown Farm

For those of you who haven't yet seen it, a short version of our farm DVD is now at last up and running on our website at www.scillyflowers.co.uk. Just follow the links from our home page to the video page to see a glimpse of our beautiful island and how our family farm grows and sends **superbly scented floral gifts** throughout the year to addresses all over the UK. Even better than that, we now have our own webcam showing what is quite probably the best office view in the world (at least when it's not foggy!), again, just follow the links on our website and wish that you were here too!

Beautiful Scented Narcissi

With Christmas fast approaching, Keith and his team are already busy picking our early crop of **Scented Narcissi**. Although it is back-breaking work at times, the knowledge that the glorious colour and heady scent will soon be bringing a smile to the faces and cheer to the homes of thousands of lucky people around the country, is enough to warm the hearts of our rugged farm team!

Don't forget that presentation gift boxes of our cheerful, scented blooms **start from as little as £9.00** and make perfect Christmas gifts for all of your family and friends. **Remember** all of our prices include delivery by First Class Royal Mail, gift packaging, ribbons, flower food and your own personal message on a pretty card. Uniquely, all our flowers are **Fully Guaranteed**.

For that really special gift to the person you love, why not send one of Zoë's hand made **scented seasonal bouquets**? Painstakingly crafted from our own **selected scented narcissi** alongside fragrant Lilies, brilliant Chinchinchees, stunning Sea Holly and seasonal Hypericum berries as well as Chrysanthemums, Solidago and bold foliage.

!Special Offer!

Having held our prices the same for the last three years, we would like to say a big thank you to all our customers by offering to send your Christmas flowers at the same low rates. **All orders received by December 1st will only be charged at our old prices.**

All that remains is for us to wish you all a very happy Christmas and a peaceful New Year with love from

Ben, Zoë, Hilary, Andrew, Rosie and Piran
